Outlast and Outperform.

You have a lot riding on your trailer, so we made Brandt's all-new S400 flip roll scissorneck trailer more durable and easier to use.

① Easier to Own

This trailer is backed by the best support in the business to make ownership stress-free:

- Flexible purchasing options include rentals, rental purchasing, leasing, and conventional financing.
- Brandt's advanced paint protection looks better, lasts longer, and inhibits corrosion for longer trailer life and increased resale value.
- Reliable design and long-lasting components reduce total cost of ownership.

② Easier to Operate

The S400 lets you get more done by making the toughest jobs easier:

- Knife-edge gooseneck profile makes it easy to load low ground-clearance vehicles over the front of the trailer.
- Kicker rolls are placed between the first and second axles to reduce friction, making loading and unloading short payloads easier and more efficient.
- Winch and J-hook positioning alternates from side to side, making securing loads easier and more efficient from either side of the trailer.

③ Safer

This trailer is designed with your safety in mind so you can work with confidence:

- Premium fir decking provides better traction for the operator in wet and frozen conditions, maximizing safety.
- Work lights are placed in important loading and unloading areas, including in the control box, to make operation easier and safer in adverse conditions.
- Remotely mounted air-tank drain valves make maintenance safer and faster.

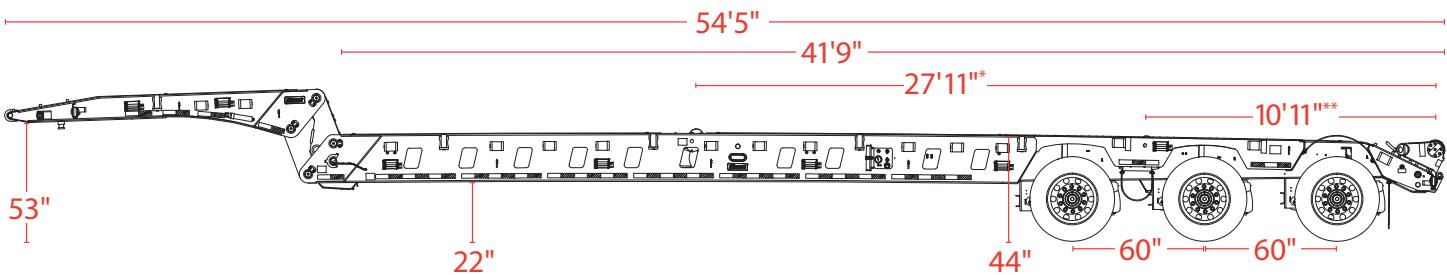

Powerful Value. Delivered.
